PERSEMBAHAN

*this one is for my parents..
all my love for them, for finding me the light,
whenever it was far away.*

Alhamdulillah, first and foremost, all praises and thank you to Allah SWT, the most Gracious and the most Merciful, for the strengths and His showers of blessings in completing this undergraduate thesis successfully. Allah is the one I worship and ask for help. In addition, greetings and invocation are also presented to the prophet Muhammad saw, who has guided mankind to the right path blessed by the Lord.

This undergraduate thesis owes its existence to the help, support, and inspiration of several people. Although it is just my name mentioned on the cover, there are many people who have contributed to the research in their own particular way and I would, therefore, like to offer my sincere thanks to all of them. It cannot be argued with that the most influential person in my undergraduate career has been my research supervisor, Dr. Nur Azizah M.Si. Mrs. Azizah's passion, trust, and motivation have deeply inspired me. I would like to express my deep and sincere gratitude to her, for providing necessary knowledge, advices, suggestions, and sources to accomplish my academic research. It is because I took her Gender and Politics' class that I got the idea on what I want to write on this research. It was a great privilege and honor to work and study under her guidance.

I also would like to express my appreciation to KOMAHI UMY, especially Divisi Pengembangan Wacana and POWER 2013, who have been a constant source of encouragement and enthusiasm, not only during this academic research but also during the three years of my Undergraduate program. I will forever remember in my heart the stories and moments we shared during these years together. I thank this organization for the lessons they gave me. Through all of the ups and downs that we spent together, I wouldn't replace any of the people I have had the opportunity to work with. Thank you for being my second home.

Some special words of gratitude go to my friends who have always been a major source of support when things would get a bit discouraging. I am especially grateful to these following groups: my fellow KKN 003 Kemasan, HI UMY 2013, Volturics 2013, CESSAS UGM, and ASEAN University Network' friends, for their constant encouragements. There are too many of them to list here, but do know that I thank them and will honor the conversations, advices, friendships, fun and helps they gave me to complete this academic research. A special thanks also goes to Rizka, Winda, Mam Oja, and Dwi, the first few people I met at university, thank you for listening, offering me advices, and supporting me since the early years of college up to now, you guys means a lot through this entire process.

I need to make separate paragraph here to thank Joa, Lady, and Kak Ambon, my previous PR team, who supported me during my time at the university. I'd never know we would be this close and there aren't words to express my gratitude to them. They are like brother and sisters to me and I will always cherish all memories we spent together. The trip to Puthuk Setembu is the one I will never forget, not because the amazing view we had finally seen, but because we got lost in the middle of nowhere at 3 a.m. and still managed to laugh and joke along the way. I also thank them for their untiring support and guidance throughout this academic research. Someday we should watch two movies in a row together again!

Toward the middle and through the end of my undergraduate career, I had the great fortune of becoming close friends with Ola, Putri Alfa, and Fitri, who were all willing to talk endlessly with me. Ola is the most thoughtful and kindest person I've ever met. I have always been able to turn to her whenever I need a listening ear, an honest opinion, or someone to eat with. She is a great friend and I know we will eat big portion of foods together many more times. Next is Putri, she is a genuine and sweet person and I really admire her skill to take good photos. Fitri is another more unique character I've met. She always makes me laugh and also a devoted friend. Three of you will always have a special place in my heart. Anyway, thank you for the big balloon!

I have put this off for a while now, but I should not forget to thank Wiwid, Anang, Aji, and Iqbal, my ambitious friends (in a good way), who have been a great help on many occasions. Wiwid, my best roommate, we have seen and helped each other through both good times and bad, I will always remember the great conversations we had and I know our friendship will continue to be as strong in the future. Anang has always cracked me up. He's a great and also a funny person to talk about anything, and lately I've enjoyed talking about life with him as well. Aji and Iqbal, thank you for their advice and their willingness to share their bright thoughts with me, including their sarcasm about anything we had talked about.

Last but most importantly, I cannot finish without thanking the most basic source of my life: my family. Thank you for their unflagging love and unconditional support throughout my life and my studies. My sister Gita, you encouraged me and expressed confidence in my abilities when I could only do the opposite. Thank you for all that you have done for me over the years, I have and will always look up to you, Teh. My not-so-little brother Gathfan, thank you for your continuous encouragement over the video calls. You are an unending source of strength and motivation in my life, I miss you so much! Finally, none of my accomplishments would have been possible without the endless love, prayers and encouragement of my parents, Ayah Hatta dan Ibu Nia Hatta. They are the ones who have generously devoted their lives to my success and were been enchanted by my every little success even more than myself. There is something beyond language I thank them. Only and only to remind myself of how much I owe them I would like to dedicate this undergraduate thesis to my parents.

Finally, I thank all those who have helped me directly or indirectly in the successful completion of my undergraduate thesis. Anyone missed in this acknowledgement are also thanked. If I did not mention someone's name here, it does not mean that I do not acknowledge your support and help. Again, I would like to thank everyone who supported and helped me during my bachelor study.

With all of my love,
Galuh Hatta
