Sedangkan pendaftaran secara elektronik (*e-registration*) dapat dilakukan oleh Wajib Pajak melalui internet dengan alamat www.pajak.go.id kemudian memilih menu *e-registration*. Prosedur pelayanannya sedikit ada perbedaan pada tahapan awal pendaftaran secara manual, namun secara keseluruhan sudah dijalankan dengan baik sesuai SE-60/PJ/2013. Hambatan yang terjadi yaitu pada saat pengiriman melalui kantor pos banyak yang belum menerima kartunya dan masih ada Wajib Pajak yang mengalami kebingungan. Upaya yang dilakukan yaitu dengan menyuruh Wajib Pajak datang sendiri ke KPP dan melakukan sosialisasi.

The type of this study was qualitative research which used descriptive approach. The data source used was primary and secondary data. The data gathering technique were interview, observation and library study method.

Based on the result of the study, it can be concluded that the manual procedure of personal NPWP registration service is done in the way that the taxpayers directly visited the KPP (Kantor Pelayanan Pajak/Tax Office) by filling out registration form including the submission of the requirements. Meanwhile, e-registration can be done by the taxpayers through internet by accessing www.pajak.go.id, then selecting menu e-registration. There are few differences on the initial phase between manual and e-registration. However, the overall procedure has been able to be administered appropriately according to the SE-60/PJ/2013. The constraints found is that during the delivery through the Post Office, there were many people who had not got the cards and there were still taxpayers who experienced confusion. The efforts performed were by asking the taxpayers to directly visit the KPP and conduct socialization.
