

LAMPIRAN

Source Code Aplikasi

1. Source Code Class Login

```
<html>
<head>
<meta charset="utf-8">
<title>Login Page</title>
<link href="style/style.css" rel="stylesheet" type="text/css">
<link href="css/bootstrap.css" rel="stylesheet">
<link href="css/bootstrap.min.css" rel="stylesheet">
<link href="css/sb-admin-2.css" rel="stylesheet">
<link href="css/font-awesome.min.css" rel="stylesheet"
type="text/css">
<script src="js/jquery.min.js"></script>
<script src="js/bootstrap.min.js"></script>
<script src="js/jquery.dataTables.min.js"></script>
</head>
<script type="text/javascript">
    function validasi() {
        var username
document.getElementById("username").value;
        var password =
document.getElementById("password").value;
        if (username != "" && password!="") {
            return true;
        }else{
            alert('Username dan Password harus di isi !');
            return false;
        }
    }
</script>

<body>

<div class="container">
    <div class="row">
        <div class="col-md-4 col-md-offset-4">
            <div class="login-panel panel panel-default">
                <div class="panel-heading">
```

```

        <h3 class="panel-title">Silakan Login Admin</h3>
    </div>
    <div class="panel-body">
        <form role="form" method="post"
action="proses_login.php" onSubmit="return validasi()">
            <fieldset>
                <div class="form-group">
                    <input class="form-control"
placeholder="username" name="username" id="username" type="text"
autofocus>
                </div>
                <div class="form-group">
                    <input class="form-control"
placeholder="Password" name="password" id="password"
type="password" value="">
                </div>
                <div class="checkbox">
                    <label>
                        <input name="remember" type="checkbox"
value="Remember Me">Remember Me
                    </label>
                </div>
                <!-- Change this to a button or input when using this
as a form -->
                <input type="submit" name="submit" class="btn
btn-lg btn-success btn-block">Login
            </fieldset>
        </form>
    </div>
</div>
</div>
</div>
</div>
</div>
</div>

<?php
if(isset($_POST["submit"]))
{
    if(count($_POST)>0)
    {
        //Including dbconfig file.
        include 'config/koneksi.php';

        $username = $_POST["username"];

        $password = $_POST["password"];
    }
}

```

```

//$EncryptPassword = md5($password);

$finalResult = mysqli_query($conn,"SELECT * FROM admin WHERE
username='$username' and password = '$password'");

$confirm = mysqli_fetch_array($finalResult);

if(is_array($confirm)) {
    session_start();
    $_SESSION['sid']=session_id();
    header('location:suratmasuk.php');
} else {

echo '<center>' . "Username atau Password Salah..." . '</center>';

}

}
}
?>

</body>

</html>

```

2. Source Code Function Upload Gambar

```

<script>
$(document).ready(function () {
    $('#submit').click(function () {
        var image_name = $('#image').val();
        if (image_name == "")
        {
            //alert("Please Select Image");
            return true;
        }
        var extension =
$('#image').val().split('.').pop().toLowerCase();
        if (jQuery.inArray(extension, ['gif', 'png', 'jpg', 'jpeg']) == -1)
        {
            alert('Format file harus .gif .png .jpg .jpeg');
            $('#image').val("");

```

```
        return false;
    }
});
});
</script>
```

3. *Source Code Function Hanya Angka*

```
<script>
    $(document).ready(function () {
        $('#submit').click(function () {
            var nama = document.getElementById('nama').value;
            if (nama.length < 15) {
                alert("noupptk maksimal 20 angka");
                return false;
            }
        });
    });
});
</script>
```
