A great number of Student Activity Unit in Yogyakarta becomes a valuable opportunity for Yogyakarta State University (YSU)'s Student Activity Unit (SAU) Serufo to compete with other SAUs in Yogyakarta, highlight their existence and improve productivity as well as quality in arts and photography. View of the purpose of the organizers of the exhibition "LEUIT" in conducting promotional activities is to increase the existence with the implemented the exhibition "LEUIT", promotional activities play vital roles to mantain their audience. Those cover four activities which are promotion planning, determining the promotion channels, the promotion itself and the promotion media used.

This study involed descriptive qualitative research method in which interviews and documentation study were elaborated. The aim of using the method was to find out how the promotional activities by the organizers of the exhibition "LEUIT" were done to maintain their existence.

The analysis of the study shows that there are four major results which show steps on the promotional activities. First, they were started with promotion planning. In promotion planning, market analysis was conducted to know the current situation of the market. Second, determining promotion channels which cover both non-personal and personal communications were done to begin the promotional activites with. Third, the process went further on the implementation of the promotion itself. The promotions were conducted through advertisements, personal selling and publicies. Fourth, the promotions that had been created were published through social medias. Social medias were chosen to be supporting media and, or be information sources.
