

CHAPTER THREE

RESEARCH METHOD

1. Type of Research

The type of this research is normative legal research. Normative legal research method is a scientific research procedure to find the truth based on legal scientific logic.¹

The source is derived from secondary data. The data used are from literature: journal, books and encyclopedia, among others.² This research aims to study the norms or regulations in practice pertaining to the recruitment system of judges in Indonesia.

This research also uses a comparative approach. Comparative approach is a research methodology in social science that aims to make comparisons with other countries system. The writer chooses to compare the system of judicial recruitment in Indonesia to judicial recruitment systems in other countries.

2. Type of Data

The data used in this research is secondary data. The secondary data consists of primary legal material, secondary legal material, and tertiary legal material. The detailed data will be explained as follows:

1. Primary legal material consist of legislation as follows:
 - a. The 1945 Constitutions
 - b. Law No. 48 of 2009 on Judicial Power
 - c. Law No. 22 of 2004 on Judicial Commission
 - d. Other Legislation: Indonesian Constitutional Court Law

¹ Johny Ibrahim, 2006, *Teori dan Metodologi Penelitian Hukum Normatif*, Malang, Bayu Media, p.295.

² *Ibid*, p. 302.

2. Secondary legal material consists of several documents that relates to the primary legal material as follows:
 - a. Books;
 - b. Scientific Journals;
 - c. Other legal document related to the issue;
 - d. Trusted internet sites; and
 - e. Other non-legal documents related to this research.
3. Tertiary legal material, as follows;
 - a. Dictionary
 - b. Encyclopedia

3. Data Collection

The method of data collection in this research is by library research through literature study. In this method, the data is collected by selecting legal materials related to the topic. Moreover, some experts were also interviewed to confirm the author's accuracy in understanding the reading material.

4. Data Analysis

The data was analyzed systematically, through descriptive qualitative approach, by systematically means that the research will be analyzed best on constitutional, legislation, and other theory related to the issue of the recruitment system of judges in Indonesia.
