Chapter Four

Results and Discussion

In this chapter, the researcher presents the result and discussion of this research. The result answer the three research questions proposed in this research. Then, in this discussion, the researcher presents further information and relates the result to the theory reviewed in chapter two.

Result

This research aims to find out how the use of Edmodo as a supplementary tool at English Education Departmen of private university. This chapter presents the result of this research about the feature provided in Edmodo that can assist ELED students in learning English, then what are the activities in Edmodo that make ELED students interested in learning English, and also language skills that can be increased by the use of Edmodo.

Result 1. Feature provided in Edmodo that can assist students in learning English.

To know whether the feature in Edmodo that can assist students in learning English, the researcher analyzed the data using descriptive statistic in analyze program. The result showed that the mean score of questionnaire items related to the feature in Edmodo was 3.01. So based on the categories of feature in Edmodo, this score belongs to "Helpful" Category (table 4, p. 26).It means that feature in Edmodo can assist ELED students in learning English.

The mean score of feature in Edmodo that can assist students can be seen in the table below.

After discussing the mean score, the researcher described clearly the result of the questionnaire one by one. The description of the questionnaire item result from the first until the last item is presented below.

Statement 1.1."*Features in Edmodo are easy to use*". In the statement one, there are 7

respondents or 6.5% who answered disagree and 86 respondents or 79.6% are agree. Then there

are 15 respondents or 13.9% who answered strongly agree. In other hand, the mean score of

statement one is 3.07. It means that features in Edmodoare easy to usebecause 3.07 lies on the

"Helpful" category (see table 4.3).The complete frequency table of statement one can be seen in

the following table below.

		Frequency	Percent	Valid Percent	Cumulative Percent
		Table 4.4 *Statement 1.1* Features in Edmodo are easy to use

Statement 1.2."**Features progress that include in assignment can show my**

achievement on learning activity". In this statement, there are 15 participants or 13.9% who

answered disagree and 82 participants or 75.9% agree. Furthermore, there are 11 participants or

10.2% who answered strongly agree. Besides that the mean score of this statement is 2.96 (see

table. 4.3). It means that features progress that include in assignment can show students

achievement on learning activity because the mean score of this statement lies on "Little bit"

category. The detail result of statement 1.2 is presented in the table below:

Statement 1.3. **"*Library feature is making me easy to find assignment data that have been sent*".** In this statement, there are 17 participants or 15.7% who answered disagree and 76 or 70.4% participants who answered agree. Then there are 15 students or 13.9% who answered strongly agree. It means that feature library on Edmodocan make students easy to find assignment data on Edmodo because there are 76 participants or 76% who agree that feature library on Edmodo can make students easy to find assignment data on Edmodo and can assist the students on learning English. Besides that the mean score of this statement is 2.98 (see table. 4.3). The detail result of statement 1.3 is presented in the table below:

Then there are 11 students or 10.2% who answered strongly agree. It means that feature search box can make students easier to find past post from their classmate because there are 83 participants or 79.9% who agree that feature search box can assist the students on learning English. Besides that the mean score of this statement is 2.97 (see table. 4.3). The detail result of statement 1.4 is presented in the table below:

Statement 1.6."*Notice feature in Edmodo can show me if there is a new assignment from teacher*". The result shows that there are 12 participants or 11.1% who answered disagree and 66 or 61.1% participants who answered agree. Then there are 30 students or 27.8% who answered strongly agree. It means

feature notice in Edmodo can show students if there is a new assignment from teacherbecause there are 66 participants or 61.1% who agree that feature notification can assist the students on learning English because can show notification if they have a new assignment from teacher. Besides that the mean score of this statement is 3.16 (see table. 4.3). The detail result of statement 1.6 is presented in the table below:

Statement 1.7. **"The function of feature planner or agenda is same as calendar. It can collect assignment data on calendar in Edmodo".** The result shows that there are 17 participants or 15.7% who answered disagree and 74 or 68.5% participants who answered agree. Then there are 17 students or 15.7% who answered strongly agree. It means thatfeature planner in Edmodo can collect assignment data from teacher on calendarbecause there are 74participants or 68.5% who agree that feature planner can assist the students on learning English. Besides that the mean score of this statement is 3.00 (see table. 4.3). The detail result of statement 1.7 is presented in the table below:

Statement 1.8. **"Feature of group in Edmodo is like a class that can be attended by students".** The result shows that there are 13 participants or 12% who answered disagree and 75

or 69.4% participants who answered agree. Then there are 20 students or 18.5% who answered strongly agree. It means that feature group in Edmodo is like a class that can attend by students because there are 75 participants or 69.4% who agree that feature class can assist the students on learning English. Besides that the mean score of this statement is 3.06 (see table. 4.3). The detail result of statement 1.8 is presented in the table below:

Statement 1.9." **Feature of community in Edmodo makes me connect with other students in the world".** The result of this statement shows that there are 22 participants or 20.4% who answered disagree and 74 or 68.5% participants who answered agree. Then there are 11 students or 10.2% who answered strongly agree. It means that feature community in Edmodo make the ELED students connect with other students in the world because there are 74 participants or 68.5% who agree that feature community in Edmodo can assist the students on learning English. Besides that the mean score of this statement is 2.87 (see table. 4.3). The detail result of statement 1.9 is presented in the table below:

answered disagree and 77 or 71.3% participants who answered agree. Then there are 11 students

or 10.2% who answered strongly agree. It means that feature alert in Edmodo can help students

get notification when teacher massage them because there are 77 participants or 71.3% who

agree that feature community can make students share their opinion with other students and can

assist the students on learning English. Besides that the mean score of this statement is 2.91 (see

Result 2. What are the activities in Edmodo that make ELED of private university students interested in learning English?

Table 6.1

The second research question is about activities and to know the activity in Edmodo that can make students interested in learning English, the researcher analyzed the data using descriptive statistic in analyze program. The result showed that the mean score of questionnaire items related to the activity in Edmodo was 3.2. So based on the categories of activity in Edmodo, this score belongs to "Interesting" Category (table 4, p. 26). It means that the activities in Edmodo, based on the respondents answer are good and interesting.

The mean score of activity in Edmodo that can make students interested in learning English can be seen in the table below.

After discussing the mean score, the researcher described clearly the result of the questionnaire one by one. The description of the questionnaire item result from the first until the last item is presented below.

Statement 2.8."*Students can discuss about topic that have been discussed before*". In this statement, there are 17 respondents or 15.7% who answered disagree and 79 respondents or 73.1% are agreed. Then there are 12 respondents or 11.1% who answered strongly agree. In other hand, the mean score of statement one is 2.95. It means that students can discuss the same topic that have been discussed before because 2.95 lies on the "So so" category (see table 6.3).The complete frequency table of statement 2.8 can be seen in the following table below.

Statement 2.9."**Edmodo facilitate students to communicate with teacher and discuss a topic about something**". In this statement, there are 13 respondents or 12% who answered disagree and 85 respondents or 78.7% are agreed. Then there are 10 respondents or 9.3% who answered strongly agree. In other hand, the mean score of statement two is 2.97. It means that Edmodo can facilitate students to communicate with teacher and discuss a topic about something because 2.97 lieson the "So so" category (see table 6.3).The complete frequency table of statement 2.9 can be seen in the following table below.

Result 3. What language skills that can be increased by the use of Edmodo ?

The third research question being proposed in this researchis about language skills that

can improved by the use of Edmodo and to know the result, the researcher analyzed the data

using descriptive statistic in analyze program. The result showed that the mean score of

questionnaire items related to the language skill that can be increased usingEdmodo was 3.08. So

based on the categories of language skill in Edmodo, this score belongs to "Significant"

Category (table 4, p. 26). It means that there are language skills that can be increase through

using Edmodo.

The mean score of language skill that can be increased through Edmodo can be seen in

the table below

Table 7.5 Mean score of language skill

Maximum		20.00

The total mean score of each statement about language skill that can be increased through

Edmodo is presented in the table below:

		N	Minimum	Maximum	Mean	Std. Deviation

4.1	Comprehension	2.8611	Little bit
4.2	Listening	2.8704	Little bit
4.3	Speaking	2.9074	Little bit

After discussing the mean score, the researcher described clearly the result of the questionnaire one by one. The description of the questionnaire item result from the first until the last item is presenting below.

***Statement 3.9.*"*Edmodo help me improve my writing skill*"**. In this statement, there are 1

respondent or 0.9% who answered strongly disagree, 13 respondents or 12.0% who answered

disagree and 71 respondents or 65.7% are agreed. Then there are 23 respondents or 21.3% who

answered strongly agree. In other hand, the mean score of statement one is 3.07. It means

Edmodo can improve students writing skill because 3.07 lies on the "significant" category (see

table 6.3).The complete frequency table of statement one can be seen in the following table

below.

19 respondents or 17.6% who answered disagree and 74 respondents or 68.5% are agreed. Then

there are 13 respondents or 12% who answered strongly agree. In other hand, the mean score of

statement fiveis 2.9. It meansEdmodo help me improve my speaking skill through upload my

speaking video on group because 2.90 lies on the "little bit" category (see table 6.3).The

Discussion

Feature provided in Edmodo that can assist students in learning English. The results

show that there are eight Edmodo features that can assist students in learning English that lies on

helpful category. This means that the features in Edmodo can help students learning English.

Statement		Mean	Category
	Table 8.3 Result of research question 1"features"		
1.5	Notification message	3.09	Helpful
1.6	Notification assignment	3.16	Helpful
1.7	Planner	3.00	Helpful
1.8	Group	3.06	Helpful
2.1	Alert	3.05	Helpful
2.2	Community discuss	3.00	Helpful
2.5	Quiz	3.01	Helpful

2.6	Post	3.00	Helpful

From the result, it was found out that notification message and assignment, planner, group, alert, community, quiz, and post feature are "helpful" according to student's statement answers. The mean score of research question about features is notification feature message 3.09, notification assignment 3.16, planner 3.00, group 3.06, alert 3.05, quiz 3.01, and post 3.00 (see t.8.3). It is mean that the use of Edmodo can assist students in learning language. It is supported by Lara (2013) that Edmodo provides a lot of convenient features to practically aid teachers and students to conduct and organize teaching in classroom sessions or students' individual learning. It is mean that Edmodo could make the teaching and learning activity become more simple and easy. Ali (2015) said that it was found thatobtaining instructions and announcements from Edmodo could make students become active in their learning.The feature that are provides in

Edmodo can also make students active in their learning activity when they received alert or notification from teachers.

Activities in Edmodo that make ELED of private university students interested in learning English. The second result about activity in Edmodo that can make students interested in learning language are save and sharing content, community sharing, join discussion other students, participate in group assignment, and online activity with Edmodo can make students" interesting" in learning language.

Table 8.4 Result of activity			
Statement		Mean	Category
3.2	Save or sharing content	3.00	Interesting
3.3	Sharing in community	3.03	Interesting
3.4	Join discussion other students	3.00	Interesting
3.6	Participate in group assignment	3.03	Interesting
3.7	Online activity with Edmodo	3.01	Interesting

The mean score of the second results are save and sharing content 3.00, community sharing 3.03, join discussion 3.00, participate in group assignment 3.03, online activity in Edmodo 3.01 (see t. 8.4). From the result there are activities that make students interested in learning language with Edmodo. The students agreed that activities provides in Edmodo make them more interesting in using Edmodo. This is in line with Dowlings (2011) who mention that the effect of using Edmodo in the course is both easy to use and interesting.

Language skills that can be increased by the use of Edmodo. The last one is result about language skills that can be enhanced by the use of Edmodo. The result found that writing skills can be enhanced by using Edmodo as supplementary tool in learning language.

Table 8.5 Result of skills			
Statement		Mean	Category
3.9	Writing	3.0741	Significant

The mean score of this result is 3.07 (see t. 8.5). That score belongs to the "significant" category. It means that using Edmodo as a supplementary tool in learning language can enhance students writing skill. There are a lot of tools and activities that can increase students language skills, as example in writing task students can have discussion with another students which is it can improved students writing skills. According to Bahrami Shams-Abadi et al (2015) using Edmodo as a technology tool has acted positively to support the writing ability. Not only have a discussion on Edmodo but, the features in Edmodo commonly provide a way to improve students writing skills. It is supported by Purnawarman, Susilawati, and Sundayana (2016) that said the Note menu which is used during the writing process apparently facilitates the students with interactivity and meaningful writing tasks.
