

## **Chapter Five**

### **Conclusion and Suggestion**

This chapter presents the conclusion and the suggestion of this research. In the conclusion section, the researcher re-explain the result of this research. Then, the researcher give his suggestion based on the reflection of her research.

#### **Conclusions**

This Research inspect of the improvement in mastering vocabulary. Based on the researcher's experience, some student still difficult to remember the vocabulary. Some students are also not interest in learning English. The researcher used The Ratatouille movie to increase their motivation in learning English. The Ratatouille movie has benefits which made the students confident in learning activity by following the storyline of the movie. The researcher taught at Junior High School in Yogyakarta which 32 students of VII H became experimental group. The researcher used test as instrument of this study from Lydia (2017) to test the students vocabulary mastery.

The result of this research showed that the level of students' vocabulary mastery before the use of the Ratatouille movie in the learning activities was in low level. the result of this research showed that there was a development on the students vocabulary mastery, it can be seen from the statistics program that the mean score of pre-test were was 6.65 The mean of post-tests score was 87.45. This research proves

that the use of ratatouille movie in the learning activities was effective as a media to learn English vocabulary.

### **Suggestions**

Through this research, the researcher gains valuable experiences in teaching and learning for students in junior high school. Based on those experiences the researcher will give some suggestions for teachers, students, school and for the other researchers.

***For Teachers.*** The teachers are suggested to use appropriate media to teach English vocabulary. The use of media is needed to help students understand English vocabulary easier. The use of media like animation movie gives more figuration about the object by seeing the picture. Animation movie is also interesting and colorful, so it would help them to remember the vocabulary. The teacher also should be able to motivate the students to learn and make them be active in the teaching and learning activities.

***For Students.*** Students should learn not only in the school but also in their home. It is needed to reinforce their understanding. Students can also use media that may help them to understand the material. One of the media that can be used is animation movie. It has interesting movable pages and pictures that help the students illustrate the real object.

***School.*** Schools are suggested to supply the learning media for the students. It is useful to help students understand the material easily. One of the examples is

animation movie to learn vocabulary as well as many other media for the other subjects.

*The other researcher.* The future researchers are suggested to make new innovation in using more interesting and useful animation movie to be applied in their research. Not only The Ratatouille movie, but also the others animation movie, such as ice age, the cars, up, and many more.
