

## ABSTRAK

Penelitian ini bertujuan untuk (1) Menganalisis konteks terkait penerapan program Praktik Pengabdian Masyarakat dalam Pengembangan Sikap Religius; (2) Menganalisis input terkait penerapan Sikap Religius (3) Menganalisis terkait proses terkait penerapan program Praktik Pengabdian Masyarakat dalam Pengembangan Sikap Religius (4) Menganalisis terkait hasil penerapan program Praktik Pengabdian Masyarakat dalam Pengembangan Sikap Religius di Pondok Pesantren Harisul Khairaat Tidore Kepulauan;

Metode yang digunakan dalam penelitian ini adalah jenis penelitian ekspos fakto (*expose facto evaluation research*) dan pendekatan yang digunakan adalah pendekatan penelitian *Mix Method* dengan model evaluasi *context,input,process*, dan *product*. Jumlah populasi dalam penelitian ini adalah 40 peserta didik dan sampel sebesar 20 peserta didik menggunakan teknik *simple random sampling*. Teknik pengambilan data menggunakan angket, wawancara, dan dokumentasi. Teknik analisis data kualitatif yaitu dengan model analisis kualitatif *Miller* dan *Huberman*, data kuantitatif melalui analisis Statistik Deskriptif, dan uji regresi linier sederhana dengan bantuan program SPSS versi 22 *for windows*.

Hasil menunjukkan bahwa (1) Evaluasi context (konteks) menunjukkan bahwa program praktik pengabdian masyarakat ini sudah sesuai dengan pencapaian target dan pada aspek kompetensi peserta didik sudah mencapai target (2) Evaluasi Input (masukan) sudah baik karena sudah menunjukkan tujuan serta manfaat yang didapatkan baik itu berinteraksi dengan masyarakat, serta bisa bertukar pikiran ilmu dari para ibu-ibu majelis ta'lim. (3) Evaluasi process (proses) menunjukkan bahwa kegiatan yang jalankan sudah sesuai dengan tarif jadwal yang di buat dan terprogram, ada beberapa kendala dari kurangnya partisipasi warga tetapi para peserta didik mampu mengatasi dengan kegiatan yang bermanfaat; (4) Evaluasi product (hasil) menunjukkan bahwa terdapat pengaruh yang signifikan antara evaluasi program praktik pengabdian masyarakat terhadap pengembangan sikap religius kelas VI MA/Aliyah Pondok Pesantren Harisul Khairaat Bumi Hijrah Tidore sebesar 100% berada pada kelompok Tinggi.

**Kata kunci:** Evaluasi Program, Praktik Pengabdian Masyarakat, Sikap Religius

## ABSTRAK

This research aims to analyze : (1) the context related to the implementation of community service practice program in the development of religious attitudes; (2) the input related to the implementation of religious attitudes; (3) the process related to the implementation of community service practice program in the development of religious attitudes; (4) the result of the implementation of community service practice program at the Islamic boarding school of Harisul Khairaat Bumi Hijrah Tidore Maluku Utara Province.

This is an expose facto evaluation research using mix method approach with a model evaluation of context, input, process and product. The population of the research was 40 students and the sample was 20 students selected through purposive random sampling. The data of the research were gathered through questionnaire, interview and documentation. The qualitative data were analyzed using Miller and Huberman qualitative analysis model, while the quantitative data were analyzed using descriptive statistics analysis, and simple linear regression test done with SPSS program version 22 for Windows.

The findings of the research are : (1) The evaluation of context shows that the program of community service practice has been in line target achievement and in the aspects of students' competence, it has also reached the target. (2) The evaluation of input has been good showing objective and benefits both when interacting with the society and exchanging ideas with women of the Majlis ta'lim. (3) The evaluation of process shows that the program has been run according to the given schedule and it is also well-organized. Lack of participation becomes the obstacles faced during the implementation of the program, but it has been successfully overcome by the students. (4) The evaluation of product shows that the evaluation of community service practice program significantly affects the development of religious attitudes of grade VI students at Islamic boarding school Harisul Khairaat Bumi Hijrah Tidore Maluku Utara Province. It is 100 % in a high category.

**Key words** : Program Evaluation, Community Service Practice, Religious Attitudes
