LIST OF QUESTION FOR PEOPLE WITH DISABILITY

FOUNDATION

In a democratic system, public participation in elections is a political right for all citizens without distinguishing ethnicity, religion, race, and gender which aims to provide a means of conveying the democratic rights of the people. Rights to people with disabilities such as the provision of public infrastructure facilities, work, and the right to participate in general elections are still marginalized. As a result, their roles and contributions are not maximized.

The 2019 simultaneous General Elections which will take place on April 17, 2019 is expected to be an election that is accessible for all citizens, especially for People with Disabilities, therefore the researcher wants to ask related to the views of People with Disability Foundation in the 2019 General Elections with the following questions:

1. How do People with Disability Foundations respond to 2019 Simultaneous General Elections?
2. What are the problems experienced by the People with Disability Foundation / People with Disabilities in 2019 Simultaneous General Election?
3. How People with Disability Foundation's role in advocating for People with Disabilities in 2019 Simultaneous General Elections?

4. What are the challenges of the People with Disability Foundation in advocating for People with Disabilities in the 2019 Simultaneous General Elections?
5. What are the hopes of the People with Disability Foundation for the 2019 Simultaneous General Elections?
6. What are the hopes of the People with Disability Foundation for Election Organizers, especially the General Election Commission (KPU)?
