TABLE OF CONTENTS

AP	PROVAL LETTER	iii
OR	RIGINALLY STATEMENT	iv
AC	CKNOWLEDGEMENTS	v i
TA	BLE OF CONTENTS	viii
LIS	ST OF FIGURES	xi
LIS	ST OF TABLES	XV
GL	OSSARY	XV
AB	SSTRACT	xvii
СН	IAPTER 1 INTRODUCTION	1
A.	Background	1
B.	Problems Formulation	
C.	Research Objectives	4
D.	Research Limitation	5
E.	Research Urgency	8
F.	State of the Art and Novelty	10
G.	Outline of Dissertation	12
СН	IAPTER 2 LITERATURE REVIEW	14
A.	Transportation and Regional Economic Development	14
B.	Sustainable Regional Freight Transportation	17
C.	Linkages of Transportation and Geographical Economics	20
D.	Freight Transportation Modelling	21
	1. Introduction to freight transportation modelling	21
	2. Freight transportation planning models	24
	3. Mode split models for freight transportation	27
	4. Generalized cost	32
	5. Type of decision making unit of freight transportation	35
	6. Revealed Preference (RP) and Stated Preference (SP)	37
E.	Geographical Information System (GIS)	39
	1. Introduction to Geographical Information System (GIS)	39
	2. ArcGIS Computer software	41

F.	Crude Palm Oil (CPO) in Indonesia	42
G.	Policy on Freight Transportation Planning	45
	1. Indonesian freight transportation planning	46
	2. Indonesian regulations on regional and transportation planning	49
СН	IAPTER 3 THEORETICAL APPROACH	54
A.	Theoretical Approach and Its Implication to the Research	54
	1. Regional transportation planning method	54
	2. Freight selection method	54
	3. Modelling approach	55
	4. Type of data	55
	5. Form of choice model	56
	6. Decision variables (attributes)	56
	7. Data collection strategy	57
	8. Utility function	57
	9. Stakeholders and decision making unit	58
B.	Research Questions	59
СН	IAPTER 4 RESEARCH DESIGN	60
A.	Research Framework	60
B.	Data Requirement	64
C.	Selection of Research Area	66
D.	Population and Sampling	71
E.	Statistical Analysis	72
F.	Data Collection and Analysis	73
G.	Secondary Data Collection	76
Н.	Database Construction	78
I.	Tools Used in Data Collection and Analysis	79
СН	APTER 5 THE DEVELOPMENT OF METHODOLOGY FOR R	REGIONAL
	TRANSPORTATION PLANNING	80
A.	The First Methodology for Regional Transportation Planning	80
B.	The Latest Methodology for Regional Transportation Planning	83
C.	Specification of Freight Transportation Planning Model	87

СН	APTER 6 RESEARCH FINDINGS RELATED TO FREIGHT TRANSPOR	RT 93
A.	Origin – Destination Survey	93
B.	Revealed Preference Survey in Central Kalimantan	94
C.	Transportation Attributes Obtained from the Survey	96
	1. Vehicle type and composition	96
	2. The weight of loaded vehicle	97
	3. The speed of vehicle	97
D.	Relationship of Travel Distance and Travel Time	98
E.	Relationship of Travel Distance and Travel Cost	102
СН	APTER 7 MODEL DEVELOPMENT FOR IDENTIFYING	THE
	TRANSPORTATION INFRASTRUCTURES	103
A.	Modelling Framework	103
B.	The Important Factors Influencing the Efficiency of Regional I	reight
	Transportation	104
C.	Modelling Freight Transportation by Integrating Spatial Model	106
	1. Modelling location choice and spatial pattern of CPO production	111
	2. Modelling regional freight transportation of CPO commodity	113
	3. Analysis results and discussions	114
D.	Application of the Inter-modality Concept into Spatial and Transpo	rtation
	Models	117
	1. Model development in 2011	120
	2. Model development in 2012	125
E.	The Transport Infrastructures Needed to Enhance Sustainable Freight Mobi	ility in
	the Region 141	
	1. Model specification	160
	2. Accessibility of CPO factories	160
	3. Generalized cost by considering all CPO factories	161
	4. Generalized cost by considering CPO factories along rail link 1A and 1B	163
	5. Utility function	166
	6. Model calibration	167
